

TK701 - NHM - NHG 224 Bridge Crane (2003)

Model: - NHG 224 Bridge Crane

SKU:

Year: 2003

Description:

25/10 Ton Bridge Crane

NHM NHG 224 2003

Brand: NHM

Model: NHG 224

Mfg. year: 2003

Bottom Riding: 3.75 ft

Bridge Longitude: 50 ft span (49.21 ft exact)

Bridge Width: 4 meters. or 13.12 ft

Voltage: 440V 3 Phase

Capacity: 25 tons and 10 tons on individual hoist

Wire rope: 6XFi (29)

Auxiliary hoist: chained to the main hoist

Trolley weight: 1250 kg or 11,339 lbs.

Trolley speed: up to 40 FPM

Wheel width on rail: 6.5 in.

Rail span: 2 in

I beam measurements: 40 in tall x 2ft wide each x 2

I beam weight approx.: 25000 lbs. x 2 or 11,339 kgs. x 2 (including 2 transversal girders that allow movement from left to right)

Hook weight: 86 kg x 2. (25-ton hook and 10-ton hook)

Control allows you to move: Both Hooks up and down, Trolley front and back and Bridge from one side to the other. BOTH HOISTS CAN BE CONTROLLED BY REMOTE

Max height of hoist: We are working on finding it by measuring length of the chain. Currently disassembled. I will have this for your soon.

Span between I beams: 69 in approx.

Runway, Uprights (you need max height of the hoist) and rail are not included (This is where you put the crane to slide from right to left).
