

TK1398 - Juki KE-2060RL High-speed Flexible Mounter (2008)

Model: KE-2060RL High-speed Flexible Mounter

SKU:

Year: 2008

Description:

Juki KE-2060RL High-speed Flexible Mounter

- Serial#: 260R8F959
- Mfg. Year: 2008

FEATURES:

- a) Laser centering
 - b) Vision Centering
 - c) High resolution head
-
- FCS (Flex Calibration System)
 - Auto Teaching of Pick Position
 - HMS (High Measurement System)
 - Camera Bad Mark Detection
 - Graphical user interface
 - Simultaneous Pick Priority Mode
 - Pick Position Priority Mode
 - No-Blow placement technology

- Independent Z / □ control

* L-Wide Configuration: The "L" denotes a wider machine, accommodating a larger PCB (e.g., 406.4 mm x 355.6 mm) and providing more feeder positions.

* Versatile Placement: From small 0603 (0201) and 0402 (01005) chips to larger ICs and odd-shaped components, using different centering methods.
