

TK767 - Mitsubishi 1600MM IIIW-240 Injection Molding Machine (2000)

Model: 1600MM IIIW-240 Injection Molding Machine

SKU:

Year: 2000

Description:

Mitsubishi 1600MMIIIW-240 (2000) WIDE PLATEN Injection Molding Machine

Brand: Mitsubishi

Model: 1600MMIIIW-240

Year: 2000

Serial number: 3M1624088

Machine specifications:

Hydraulic or Electric: Hydraulic

Tonnage: 1600T (metric)

Shot Size (max gram weight or max ounces/shot): 240 Oz.

Injection Speed: 1075 cm³/sec

Injection Pressure: 30000 kg-f (30 tons)

Clamp Style: Slit nut clamp

Distance between tie bars: 1800 x 1600mm

Mold clamp style: Kosmek auto clamp

Platen Size (width x height): W: 2450mm H: 2250mm (Wide Platen version)

Min & Max mold opening: Min 800mm Max 2400mm

Core-Pull available? Yes, 4

Pneumatic Parts Ejection: Yes

Screw diameter: 120mm

Controller type (model number): Mitsubishi MAC-VI

Hours/cycle time: 32763Hrs

Power specifications: 480v

Hydraulic Knockout available: Yes

Platen Diagram available: Yes

Types of products molded/materials ran: ABS (television)

Serviced & tested, fully operational, barrel and screw in good condition
