TK787 - Omron VT-RNS-L Automated Optical Inspection Machine (AOI) (2009)

Model: VT-RNS-L Automated Optical Inspection Machine (AOI)

SKU:

Year: 2009

Description:

<u>OMRON VT-RNS-L (AOI) Automated Optical Inspection Machine (2009)</u>

The inspection process employs image processing techniques specially designed for the color highlight system.
It is possible to output the inspection results to either the monitor or printer.
It is also possible to send a signal to a downstream machine to separate faulty boards from good ones.

Machine specifications:

Manufacturer: Omron
Model: VT-RNS-L
Year: 2009
Serial#: 1210808-5396
Air presure 0.4 to 0.6MPa Max. 5L/min

960 x 960 pixel FOV
S/W ver. 6.10G
Camera resolution: 10, 15, 20 µm
PCB size, max: W 510 x L 460 mm
PCB size, min: W 80 x L 50 mm
Voltage: 220V
Frecuency: 50Hz
1-phase
Status light
